

BlackBerry Enterprise Server Set-up

Figure 8. Move around the screen

From the Applications List screen, use Trackball to scroll to "Options" (wrench icon) and select
Go to "Advanced" and select
Select "Enterprise Activation"
Key in your email address and password (provided by your BES Administrator)
Select the "Menu Key" 
Highlight and select "Activate"
The device will automatically begin the synchronization process. This may take several minutes.
The device will notify you when it is complete.
